

## Section Meeting - 18.7.2008

⇒ new hour 9:00 AM

CNGS: • Friday 18.7.08 <sup>at 11:00 AM</sup> left containers with tractor +

long trans-pallet in EHN1 ramp. Aim for

two containers? can we do more? New tractor already ~~arrives~~ at CERN. ~~end of July~~

- Study for emergency case with plugs. Detail?

- No beam since one neck due to PS problems
- Many thanks from SPSC for the successful restart of CNGS this year

- Specs for plugs → Normo EC to report. ongoing

- Spare hours: input ramps ready; renew flanges for outlet  
→ check if we can do pulsing?  
→ the diodes for the power supply used in ECA4  
- Aug: check with PO

East area: • nothing special; re-scheduling in place due to PS problems

- tests for CLOUD beam before August 9<sup>th</sup>  
↳ use existing hodoscope to check beam parameters

North area: • installation CERN o.k.

↳ clean-up the area for RP

- H2 realign new magnet 27.7

→ remove vacuum between hand

⇒ side shielding for NAG1 ~~next~~ next MD

- NAG1: dismantling of calorimeter ongoing

Sylvain: meeting with NAG1 + transport  
for dismantling procedure

Preparé installales for P022

Edda: list of tables → web page

NAG2: list of activities done

↳ ~~Gaut~~ Ans: planning of  
activities

→ vacuum drawings → check EDMC and approve

## Vacancy

Sylvain: 8.8 → 9.9

Iliac: 30.7 → 27.8

Claude: 2.8 → 24.8

Gevard: 11.8 → 31.8

Christian: 24.7 → 4.8

Ans: - ~~some~~ weekends

Victor: - weekends 11.9 - 15.9

Edda: 25.7 →

Lau: on post!

Michael: 1.9 → 15.9

Aby: 28.7 → 18.8

Bruno: devetou fin July
